EDUCATION

- B.Tech CSE**
Dibrugarh University Institute of Engineering
& Technology
2023 - 2027
- Higher Secondary**
TRB Higher Secondary School
2022
- Secondary School**
Saint Peters School
2020

TECHNICAL SKILLS

- Python
- SQL
- Power BI
- Data Analytics
- DBMS
- HTML
- CSS
- Flask
- Backend Development
- Full Stack Development

SOFT SKILLS

- Leadership
- Communication
- Problem Solving
- Critical Thinking
- Teamwork
- Time Management

PROFILE

Motivated Computer Science and Engineering student with a strong interest in software development, backend technologies and data analytics. Passionate about developing innovative solutions, learning new technologies and applying my technical knowledge to real-world projects.

INTERNSHIPS

- Backend Development Intern**
IIT Guwahati (Jun 2025 – Jul 2025)
 - Developed Railway Incident Management & Safety Monitoring System.
 - Built backend APIs using Flask and MySQL.
 - Implemented role-based login and incident tracking.
- Data Science Intern**
Cognifyz Technologies (Dec 2025 – Jan 2026)
 - Worked on real-world data science tasks using Python.
 - Performed data cleaning and visualization.
 - Extracted meaningful insights from datasets.
- Data Science Intern**
The Developers Arena (Dec 2025 – Jan 2026)
 - Completed hands-on Data Science training.
 - Worked on industry-level projects.
 - Enhanced analytical and visualization skills.

PROJECTS

- Soul Sync – Mental Wellness Web Application**
 - Developed a responsive full-stack mental wellness platform.
 - Implemented mood tracking and AI-powered journaling.
 - Created analytics dashboards to visualize wellness trends.
- Railway Incident Management & Safety Monitoring System**
 - Developed a centralized railway incident reporting platform.
 - Implemented role-based access for railway officials.
 - Integrated backend APIs with MySQL database.
